Community Update

Hi everyone,

I just wanted to be proactive in giving you an update on what is going on in the district regarding COVID. There was a support staff member who tested positive this week. They made sure to stay at home when they began feeling sick at the end of last week making sure to follow the current protocols that we have in place. Once we were told about the situation, the school nurse, Beth Durbin, was contacted along with Dr. Dannenhoffer from Aviva Health. To make a long story short, here is the information that is important to know. The good news is that we are in the process of completing contact tracing. We are working closely with our local health officials to ensure the safety of staff and students alike. As we continue to do this, we have met as a district leadership group to add to our plan moving forward. I am happy to tell you that we have a strong blueprint in place, which is a testament to the strong staff that we have in place at YSD.

Once again, I am so proud of the employees of the Yoncalla School District. When a challenge arises, they take a positive approach to finding a solution. Thank you to the parents and community for the encouragement going forward as we continue to navigate these uncharted waters! 😊

Respectfully,

Brian Berry, Superintendent
