July 5 – 8	Sasha Cameron	Dungeons and Dragons	Entering 7 th – 12 th Grade
July 25 – 28	Jessie McHaffie	3D Printing	Entering 5 th – 9 th Grade

Summer School and Workshop Descriptions

Summer School: Need to catch up on some of those credits so you can be on track to graduate or play sports? Well come join Mrs. Ross and Mrs. Cameron! Summer school is teacher facilitated, meaning we will be your guide, with onsite Credit Recovery using Odysseyware. Students will complete one class at a time with the option to earn up to 2.0 credits within the five-week time frame.

Hiking Camp: Do you enjoy the outdoors, trees, waterfalls, and hiking? Then look no further than this summer's Hiking Camp with Ms. Wilde. This camp will involve hiking and visiting waterfalls around Douglas and Lane County and is aimed at students entering 6th through 12th grade. As we will be hiking, good shoes and long pants are required. *Due to the location of our hikes, we will be regularly returning after 2pm. Students need alternative transportation home each day.*

Basketball Camp: Yoncalla basketball camp will focus teaching student's basic basketball skills in footwork, shooting, defense, rebounding, dribbling, and passing. The first part of each day will be skills and skill competitions against themselves and other campers. The second half of each day will be games to show the skills they have learned. Students will need to bring a water bottle and basketball shoes. Campers are more than welcome to use the locker room to change each day if needed.

Middle School Trades Camp: If being active, working with your hands, developing leadership skills, improving your STEAM skills, and teamwork all sound like a great way to spend part of your summer vacation, come attend Middle School Trades Camp featuring summer guest staff, Sam Batman of Phoenix Charter School and Troy Longbrake of Job Corps Wolf Creek. In this camp, we will learn the basics of job site safety, what is an apprentice, measurement and math, resilience, and teamwork. Projects you may be involved with include: design and build a sprinkler, build a toolbox, frame and pour a stepping stone, build and process a garden box, build a birdhouse, obstacle course, and many other options. Open to middle school aged students entering 5th – 9th grade and limited to 10 spots per session.

Exploring Douglas County: Explore Douglas County is an opportunity for Yoncalla students to explore the area in which they live. We will take trips to the Douglas County Museum to learn more about the history of the area. We will visit the Wildlife Safari to see animals from all over the world. We will visit James Orchard and have the opportunity to pick farm fresh fruit to take home. We will complete our camp with a trip to the coast and visit the Umpqua Light House. Due to travel, this camp will be may impact student transportation home. Students will know in advance what days they will need alternative transportation home.

NEW!

Dungeons and Dragons (D & D) Camp: Epic battles. Wily tricksters. Mysterious objects. Magic spells. Monsters and villains of every shape and size. Treasures beyond your wildest dreams. This is just a sampling of what you can expect to come across in a Dungeons and Dragons campaign. Camp will begin with a character-building session, where students will get to craft their own character to play in the campaign, complete with a backstory to help inform how their character will behave and interact with the rest of the group. Once characters are built and ground rules established, the Dungeon Master will lead the group of adventurers through a series of missions, allowing them to gain experience and level up as they go. No experience necessary, you can learn as you go. We will be playing from the 3.5 edition because of its accessibility (all books can be found as pdfs online). Useful things to bring along if you have them would be some sort of device to access pdfs (phone, tablet, laptop), and a set of gamer's dice (includes one each of 20 sided (no spin downs!), 12 sided, 8 sided, 6 sided, and 4 sided, and two 10 sided die). If you don't have them, don't worry! There will be books and dice sets available to borrow during camp. Adventure awaits. Will you answer the call?

3D Printing Camp: Are you interested in learning the basics of 3D printing? Working with Mr. McHaffie in the Shop, you will learn about all TinkerCad and walk away with your own designs each day!
